Our PLACEMENTS PROCESS

1

Benefits to our Clients

The ESI & EPF code number will be allotted by the contractor. The no of ESI & EPF Code will be continued till they are terminated /resigned from the labour Contractor's roll. All formalities and requirements of the labour departments, ESI & EPF departments will be handled by the contractor

2

Salary will be paid after auditing ESI, EPF & PT along with salary slip. The copy of the documents will be submitted to client every month. All the accounts of the labourers will be maintained by the labour contractor. We hire trained and talented staff members and make sure they keep themselves updated with the latest industry and technological advancements so that they can deliver the best services to the clients. So, Are you looking for commercial housekeeping services? Does your organisation need skilled and technical manpower? As we have been into the industry since the last many years, we have offered our services to businesses of all the shapes and sizes.

3

We recruit selected candidates as per the client's requirements. The client will have full provision to choose the right candidates and select for right position. We also enroll labourers as directed by the company under our contract. Since all the laborers will be coming under labour contractor's role, clients company will not be having any problems. Our agency is ready to supply as much as employees by the clients.

Boosting the employment
balance is key...

1 Hassle Free IT Services

M POWER SOLUTION has IT services professionals familiar with all types of heterogeneous networks. Clients have utilized our services to design, install, and manage their support.

2 Product Engineering Solutions

M POWER SOLUTION clients often require additional consulting and managerial support to supplement their in-house development efforts. M POWER SOLUTION is uniquely qualified to provide this vital support. The professionals at M POWER SOLUTION have worked on countless software development efforts, and as a result are well equipped to quickly anticipate and address problem areas on a given project. M POWER SOLUTION can serve as solution or, if need be, assume management of an entire project.

3 System Architecture and Design

Design is often the most critical phase of any software development effort. In many cases, the quality of the finished software is directly proportional to the quality of the initial design. One metaphor is particularly appropriate... Ask yourself this question: What quality of house would you get if you built it with no blueprints? Custom software development is an investment.
